## CZECHS EAGER TO FORM SEPARATE U. S. ARMY UNI

(Continued from First Page.)

Soon as permission was given to them to enroll in the British army, practically all of military age in Great Britain did so. In Russia they begged for permission to enlist, and Russian High Command, under the ancient regime, supported their demands. They were invaluable in the intelligence service and as scouts ecause most of them understood German and were well acquainted with Austrian army organization. But the old government did all it could to im-pede the enlistment of Czechs in the ussian army despite the urgent demands of the High Command. Dur-ing the short period of constitutional rule in Russia, they succeeded in forming several divisions.

National Army Created.

In France by the decree of December, 1917, the Czechoslovak national army was created. In Italy in April of this year. Great Britain recognized the Crecheslovak national y. All three powers—Great Brit-France and Italy—acknowledge Czechoslovak national committee, fer chairmanship of Prof. Masaryk as the political organ of that army and concede to that committee certain regard to the ovaks within their territories.

Through centuries she fought and pleaded for independence, and when in 1867 the Austrian monarchy assumed dualistic form, leaving out Bohemia, she protested. So vigorous were her demands for her ancient rights that the late Francis Joseph twice was on the point of yielding, but when in 1879 Bismarck played his trump card and the German-Austrian trump card and the German-Austrian alliance was formed, the death knell of Bohemian aspirations was sounded. From that moment the struggle of the Czecho-Slovaka became more intense and bitter, and their record in the war is a glowing tribute to their unconquerable spirit and their rigid determination to break the tyrant's grasp.

From the very first moment of the war, they have stood unshakably by the allied cause. The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock mar-kets. First deed of trust notes (first mort-anges), well secured on real estate in the District of Celumbia, constitute "gitt-edge" investments, and they do not depend upon the financial responsibility of individuals or co-porations for their stability.
